// Showing all data from user's collection // shows all added data
db.users.find();

```

1. Find documents where the age is between 25 and 30:

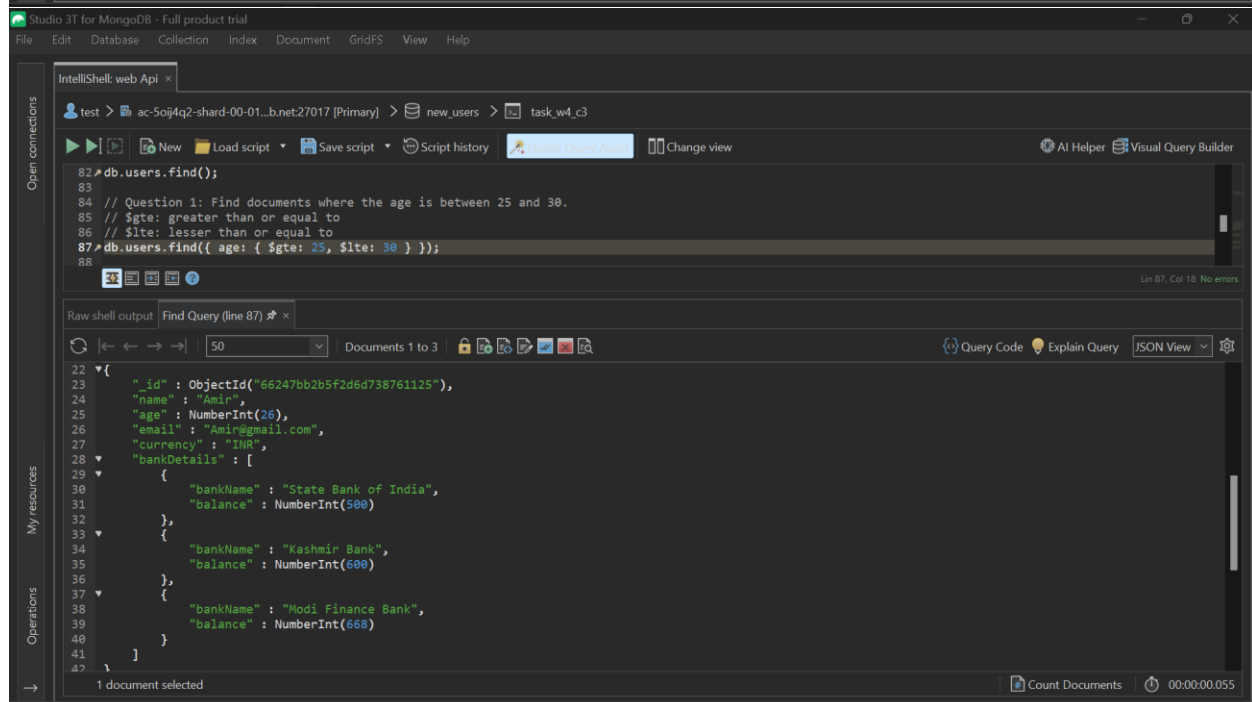

The screenshot shows the MongoDB Studio 3T interface. The top panel displays the MongoDB shell with the following code:

```
82 db.users.find();
83
84 // Question 1: Find documents where the age is between 25 and 30.
85 // $gte: greater than or equal to
86 // $lte: lesser than or equal to
87 db.users.find({ age: { $gte: 25, $lte: 30 } });
88
```

The bottom panel shows the result of the query, which is a single document:

```
1 {
  "_id": ObjectId("66247bb2b5f2d6d738761124"),
  "name": "Ganesh",
  "age": NumberInt(25),
  "email": "ganesh@hotmail.com",
  "currency": "INR",
  "bankDetails": [
    {
      "bankName": "Global IME",
      "balance": NumberInt(1000)
    },
    {
      "bankName": "NIC ASIA",
      "balance": NumberInt(2000)
    },
    {
      "bankName": "Himalaya Bank",
      "balance": NumberInt(5263)
    }
  ]
}
```

The interface also shows the "Open connections" panel on the left, the "My resources" panel, and the "Operations" panel. The bottom status bar indicates "1 document selected" and "Count Documents 00:00:00.055".
